Executive Summary

The University of New Hampshire Survey Center included four questions on its May 2023 Granite State Poll for the New Hampshire Independence Political Action Committee to gauge New Hampshire residents' opinions on the idea of New Hampshire seceding from the United States. One thousand, one hundred and five (1,105) Granite State Panel members completed the survey online between May 18 and May 22, 2023. The margin of sampling error is +/- 2.9 percent.

The following figures display survey results, detailed tabular results may be found in Appendix A, and Appendix B contains the survey instrument. Due to rounding, percentages may not add to 100%.

Key Findings

Awareness and Attitudes Towards Secession

Most New Hampshire residents say they don't recall hearing very much or anything at all about the New Hampshire House of Representatives in March 2022 rejecting a proposed constitutional amendment calling for New Hampshire to peaceably declare independence from the United States.

One in five state residents would support holding a vote to determine whether voters in New Hampshire want the state to peaceably declare independence from the United States. A majority of self-described libertarians and about one-third of conservatives and self-identified Republicans support such a vote, while very few progressives or liberals or Democrats support such a vote.

One in six Granite Staters support New Hampshire peaceably seceding from the United States and governing itself as an independent country while three-quarters of state residents oppose such an action. Support for secession is highest among libertarians, Connecticut Valley residents, and 2020 Trump voters, while it is lowest among socialists, liberals, progressives, and Democrats. More than half definitely or probably would want New Hampshire to join the United States if it were not already part of the union while more than one-quarter say they would definitely or probably not want New Hampshire to join.
Awareness and Attitudes Towards Secession

Only 5% of New Hampshire residents say that they have heard a lot about the N.H. House of Representatives in March 2022 rejecting a proposed constitutional amendment calling for New Hampshire to peaceably declare independence from the United States and govern itself as an independent country. Twenty-three percent say that they heard some about this, 21% heard not very much, 50% did not hear about it at all, and less than 1% don’t know or are unsure.

Figure 1a: In March of 2022, the N.H. House of Representatives rejected a proposed constitutional amendment calling for New Hampshire to peaceably declare independence from the United States and to govern itself as a separate country. How much do you recall hearing about this? - May 2023

- North Country and Manchester Area residents, MSNBC and CNN viewers, and those with a household income between $45,000 and $74,999 are more likely than others to say that they heard a lot or some about the N.H. House of Representatives in March 2022 rejecting a proposed constitutional amendment calling for New Hampshire to peaceably declare independence from the United States and govern itself as an independent country. Those who did not vote in 2020, Connecticut Valley and Central/Lakes Region residents, those with a household income below $45,000, self-described conservatives, and self-identified Republicans are less likely to have heard this much about this.

Figure 5: Combined support for secession and desire for NH to join United States if not already part of union - May 2023
Technical Report

How the Sample Was Selected
The May 2023 Granite State Poll survey was a web-based survey of Granite State Panel members who are recruited from randomly-selected landline and cell phone numbers across New Hampshire. The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Respondents to the Granite State Poll were asked if they wished to participate in further research and asked to provide an email address. Those who agreed and provided an email address were added to the panel. Panel members were also recruited by texting a random sample of cellular telephones in the state and inviting the recipient to take a short survey. At the conclusion of the survey, recipients were asked if they would like to join the panel and provide an email address. Respondents under the age of 18, non-New Hampshire residents, and seasonal residents who are not registered to vote in New Hampshire were excluded from this survey and did not receive an invitation to join the panel. For each survey which they complete, panel members are entered into quarterly drawings to earn rewards, such as gift certificates from statewide and internet companies.

When Data Was Collected
An invitation email was sent to Granite State Panel members on May 19th, 2023. Two email reminders were sent to non-responders and the survey was completely closed on the morning of May 22nd. One thousand, one hundred and five (1,105) Granite State Panel members completed the survey. The response rate for the May 2023 Granite State Poll is 28%.

Weighting of Data
Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the New Hampshire Secretary of State and to 2020 election results in New Hampshire. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

Sampling Error
The Granite State Poll, like all surveys, is subject to sampling error due to the fact that all residents in the area were not interviewed. For those questions asked of five hundred (500) or so respondents, the error is +/-4.4%. For those questions where fewer than 500 persons responded, the sampling error can be calculated as follows:
Sampling Error = \pm 1.96 \sqrt{\frac{P(1-P)}{N}}

Where P is the percentage of responses in the answer category being evaluated and N is the total number of persons answering the particular question.

For example, suppose you had the following distribution of answers to the question, "Should the state spend more money on road repair even if that means higher taxes?" Assume 1,000 respondents answered the question as follows:

<table>
<thead>
<tr>
<th>Response</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>YES</td>
<td>47%</td>
</tr>
<tr>
<td>NO</td>
<td>48%</td>
</tr>
<tr>
<td>DON'T KNOW</td>
<td>5%</td>
</tr>
</tbody>
</table>

The sampling error for the "YES" percentage of 47% would be

\[ \pm 1.96 \sqrt{\frac{47(53)}{1000}} = \pm 3.1\% \]

for the "NO" percentage of 48% it would be

\[ \pm 1.96 \sqrt{\frac{48(52)}{1000}} = \pm 3.1\% \]

and for the "DON'T KNOW" percentage of 5% it would be

\[ \pm 1.96 \sqrt{\frac{5(95)}{1000}} = \pm 1.4\% \]

In this case we would expect the true population figures to be within the following ranges:

- YES: 43.9% - 50.1% (i.e., 47% \pm 3.1%)
- NO: 44.9% - 51.1% (i.e., 48% \pm 3.1%)
- DON'T KNOW: 3.6% - 6.4% (i.e., 5% \pm 1.4%)

The margin of sampling error for the May 2023 Granite State Poll is +/-2.9 percent.

**Design Effect**

These MSE's have not been adjusted for design effect. The design effect for the survey is 2.6%. 2023 05 – Granite State Poll

You are invited to participate in a study about politics and current events, sponsored by the University of New Hampshire. The use of human subjects in this project has been approved by the UNH Institutional Review Board (IRB) for the Protection of Human Subjects in Research.

- The survey will take about 10 minutes to complete.
- Participation is completely voluntary and refusal to participate will not affect you in any way.
- You may refuse to answer any questions or stop at any time.
- Your answers will be combined with the answers of residents across the state and used for research purposes only.
- Data will be kept in secured files, available only to the researchers. We will make every effort to maintain the confidentiality of the data.
- Research via the internet presents minimal risk of a breach of confidentiality. You are not anticipated to receive any direct benefits from participating in this research.

By clicking the "Yes, I'd like to participate" button below, you are indicating that you consent to participate in this study. If you prefer not to participate, please simply close this window in your browser.

If you have any questions about the survey, please contact Sean McKinley at the University of New Hampshire Survey Center, sean.mckinley@unh.edu or 603-862-2563.

If you have any questions about your rights as a research participant, you may contact Melissa McGee in UNH Research Integrity Services, melissa.mcgee@unh.edu or 603-862-2005 to discuss them.

Thank you for your participation!

Display This Question:
If in which town or city do you live? = Other

You indicated an "other" town or city above. Which town or city is that?

________________________________________________________________

Would you say that you and your family living there are better off or worse off financially than you were a year ago?

- Better off (1)
- About the same (2)
- Worse off (3)
- Don't know/Not sure (98)
Now, looking ahead, do you think that a year from now you and your family will be better off financially, worse off, or just about the same?

- Better off (1)
- About the same (2)
- Worse off (3)
- Don’t know/Not sure (98)

What about business conditions in New Hampshire as a whole, do you think that during the next twelve months we’ll have good times financially or bad times?

- Mostly bad times (4)
- Bad times (5)
- Don’t know/Not sure (98)
Looking ahead, which would you say is more likely, that in the country as a whole we will have continuous good times during the next five years or so or that we will have periods of widespread unemployment or depression?

- Continuous good times (1)
- Mixed (2)
- Widespread unemployment or depression (3)
- Don't know/Not sure (98)

Now thinking about the big things people buy for their home, such as furniture, a refrigerator, a stove, televisions, and things like that, generally speaking, do you think now is a good time or bad time for people to buy major household items?

- Good time (1)
- Neutral (2)
- Bad time (3)
- Don't know/Not sure (98)

Moving on to marijuana legislation...

In general, do you support or oppose legalizing the possession of small amounts of marijuana for personal recreational use in New Hampshire?

- Strongly support (1)
- Somewhat support (2)
- Neutral (3)
- Somewhat oppose (4)
- Strongly oppose (5)
- Don't know/Not sure (6)
Governor Chris Sununu has recently signaled that he is willing to sign a bill legalizing the recreational use of marijuana using a "state control" model, in which the state would control distribution and sales in a system modeled after the way liquor is handled in New Hampshire.

Does Sununu's support for such a measure make you more or less likely to support legalizing marijuana in New Hampshire?

- Much more likely (1)
- Somewhat more likely (2)
- Makes no difference (3)
- Somewhat less likely (4)
- Much less likely (5)
- Don't know/Not sure (98)

Would you support or oppose legalizing the recreational use of marijuana in New Hampshire using a "state control" model?

Display This Question:

If Would you support or oppose legalizing the recreational use of marijuana in New Hampshire using a... = Somewhat oppose

Or Would you support or oppose legalizing the recreational use of marijuana in New Hampshire using a... = Strongly oppose

Which of the following best describes why you oppose legalizing the recreational use of marijuana using a "state control" model?

- Don't want to legalize recreational use of marijuana at all (1)
- Want to legalize recreational use of marijuana with another system (2)
- Don't know/Not sure (98)

Now a few questions about recent discussions in the New Hampshire legislature.

In March of 2022, the N.H. House of Representatives rejected a proposed constitutional amendment calling for New Hampshire to peaceably declare independence from the United States and to govern itself as a separate country. How much do you recall hearing about this?

- A lot (1)
- Some (2)
- Not very much (3)
- Not at all (4)
- Don't know/Not sure (98)
Would you support or oppose the idea of New Hampshire holding a vote to find out whether voters want New Hampshire to peacefully declare independence from the United States?

- Strongly support (1)
- Somewhat support (2)
- Neutral/Doesn't matter to me (3)
- Somewhat oppose (4)
- Strongly oppose (5)
- Don't know/Not sure (98)

Would you support or oppose New Hampshire peacefully seceding from the United States and governing itself as a separate country?

- Strongly support (1)
- Somewhat support (2)
- Neutral/Doesn't matter to me (3)
- Somewhat oppose (4)
- Strongly oppose (5)
- Don't know/Not sure (98)
If New Hampshire were not already part of the United States, would you want New Hampshire to join?

- Definitely (1)
- Probably (2)
- Probably not (3)
- Definitely not (4)
- Don’t know/Not sure (98)

How much would you say that you trust the following institutions or groups?

Moving on to the debt ceiling...

How much have you heard about the upcoming possible breach of the federal "debt ceiling"?

- A lot (1)
- Some (2)
- Not very much (3)
- Nothing at all (4)
- Don't know/Not sure (98)

How well would you say that you understand what the federal "debt ceiling" is?

- Very well (1)
- Somewhat well (2)
- Not very well (3)
- Not well at all (4)
- Don't know/Not sure (98)
Some have argued that any increase in the federal "debt ceiling" should also require a reduction in future spending, while others argue that the "debt ceiling" should be raised and negotiations over the future budget should take place separately.

To the best of your knowledge, do you think a "debt ceiling" increase should be tied to a reduction in future spending or should the "debt ceiling" be increased separately from budget negotiations.

- Increase should be tied to a reduction in future spending (1)
- Increase should be separate from budget negotiations (2)
- Don't know/Not sure (98)

How likely do you think it is that there will be a breach of the federal "debt ceiling" in the next few months?

- Not very likely (3)
- Not at all likely (4)
- Don't know/Not sure (98)
Moving on to immigration...
How much have you heard about the recent expiration of the immigration policy known as "Title 42"?

- A lot (1)
- Some (2)
- Not very much (3)
- Nothing at all (4)
- Don’t know/Not sure (98)

"Title 42" was an emergency health provision related to immigration that was enacted in March 2020 which allowed U.S. officials to turn away migrants who came to the U.S.-Mexico border on the grounds of preventing the spread of COVID-19. Some in Congress have proposed granting the Biden administration emergency powers similar to "Title 42" for the next two years.

Would you support or oppose granting the Biden administration emergency powers similar to "Title 42" for the next two years?

- Strongly support (1)
- Somewhat support (2)
- Neutral (3)
- Somewhat oppose (4)
- Strongly oppose (5)
- Don’t know/Not sure (98)
Generally speaking, do you think it should be easier or harder for foreigners to do the following?

<table>
